# about us

In 2012, the New York City Administration for Children's Services awarded Lutheran Social Services of New York the opportunity to revitalize existing early childhood education centers, open new centers, and expand a network of home-based child care. Today, our network of teachers provides quality early learning and child care opportunities to nurture a child's social, emotional, and educational needs, while partnering with parents to build a strong foundation for families.

Early care and education is so essential to a child's success in life. Our classrooms are rich with music, art, and technology, and along with our exceptional teachers, we help children begin on a positive path to kindergarten.

To build on our unprecedented success, the Early LIFE program continues to maintain special relationships with families who enrich our programs and strengthen community bonds.

## EARLY CHILDHOOD DEVELOPMENT

Children go through distinct periods of development as they move from infancy through age 5. Research has shown that these years are the most important time in brain development. During this time, the brain and body form connections essential for their future learning and healthy physical growth.

Early LIFE supports early childhood development by providing a nurturing environment and fostering social/emotional, physical and cognitive development to promote school readiness and build healthy families.

## APPROVED CURRICULUM

Early learning at our centers and in our home-based programs is fun, engaging, and age-appropriate. We teach children the skills they need as they take their first steps toward preschool and kindergarten. Our teachers use The Creative Curriculum to incorporate a wide range of teaching strategies, including child-initiated learning and teacher-directed approaches to best respond to children's learning styles, strengths and interests. By working with our diverse community of families, and our neighborhood partners, The Creative Curriculum helps our teachers to integrate learning in literacy, math, science, social studies, art, and technology, in an environment that invites children to observe, be active, make choices, and explore.

## INFANT & TODDLER CARE

We care for children in our infant/toddler program in nurturing, responsive, caring environments that inspire trust, creativity, curiosity, and self-confidence.

## PRESCHOOLERS

Early LIFE Centers offer Early Head Start & Head Start, Child Care and Universal Pre-Kindergarten in a center-based environment for children 2, 3, and 4 years old.

## ENROLLMENT

Families interested in low-cost or free child care should apply by contacting our enrollment staff at [mrodas@lssny.org](mailto:mrodas@lssny.org) to discuss program requirements and the needs of their child. We encourage parents to visit our programs, and any one of our Family Child Care registration locations, in order to choose the best care. Once a specific Early LIFE program is chosen, you will need to apply and submit the required documentation.

Families may be eligible for free or low-cost child care based on their family's income and reason for requiring child care. Financial eligibility is determined by a family's gross income, with consideration of family size.

### TO ENROLL, YOU WILL NEED THE FOLLOWING DOCUMENTATION:

- Proof of your child's birth - one required (birth certificate, baptism record, alien registration card)
- Two proofs of residency (e.g., utility bill, rental lease)
- Proof of income (e.g., pay stub, W2 form)
- Proof of public assistance and/or Medicaid

### ELIGIBILITY FOR CHILD CARE:

New reasons for care apply to families that are not on cash assistance and are at or below 200% of the state income standard.

- Homeless families for up to 12 months
- Parents attending a four-year college and working 17.5 hours per week
- Parents looking for work for up to six months

## FAMILY CHILD CARE NETWORK (FCC)

At Early LIFE, we work with registered family child care providers who educate and nurture children 6 weeks to 4 years of age, in a home-based environment.

Early LIFE provides quality family and group family child care in all five boroughs.

### FOR FAMILIES:

- Affordable, quality child care
- Nurturing, safe environment
- Highly-trained professionals
- Home visitor monitoring
- Developmental screening
- Family Planning
- Referrals for family services
